Dear Jack:

Thanks for sending me the copies of your letters from Schweiker and the AP story on POST MORTEM from an unidentified paper.

Please remember that the investigation was a disinvestigation and let me be devil's advocate with what you have given Schweiker to protect him from innocent error of which there has already been enough to damage his prospects.

I am satisfied the man is serious but there is nobody and no staff that can do all this work in a few months.

Best,
